Subject: FW: Revised update to BP Whiting web page for April 3. Is this accurate?

Phillippa,

I believe this is accurate. Sent this to Mike and Charlie for feedback.

April 3, 2014

U.S. EPA was not on site today at the BP Whiting incident due to inclement weather. The next expected update will be Friday, April 4, when EPA will be on site to review conditions with a Shoreline Cleanup Assessment Team.
